# Executive Summary

## GCC 4.0: Co-Creating India's Innovation Powerhouse 2026

represents the definitive intersection of India's most promising DeepTech innovations with the strategic priorities of Global Capability Centers. Organized by IIT Kanpur Alumni this summit offers a curated platform where decision-makers from GCCs can engage directly with India's premier AI-native startups, influential policymakers, and cutting-edge research institutions.

As India's GCC landscape evolves from traditional delivery centers to innovation powerhouses, this summit provides the strategic connections needed to drive transformation, sustainability, and technological leadership.

# The GCC Opportunity Landscape

---

# From Cost Centers to Innovation Engines

India hosts 1,800+ GCCs employing 2 million professionals, generating USD 64.6B in revenue with projections exceeding USD 100B by 2030. The ecosystem is undergoing a fundamental transformation:

## Strategic Shift

GCCs are pivoting from cost optimization to becoming innovation hubs spearheading AI, DeepTech, and sustainability initiatives

## Geographic Expansion

Beyond established hubs (Bengaluru, Hyderabad, Pune), tier-2 cities (Ahmedabad, Coimbatore, Jaipur) are emerging as new centers of excellence

## Technological Frontiers

GCCs are advancing capabilities in AI/ML, quantum computing, cybersecurity, and sustainable technologies

## National Priority Alignment

India's government has committed ₹10,000 Cr+ to accelerate DeepTech & AI transformation

# Key Drivers for GCC Growth

## Talent Advantage

Access to over 5 million tech professionals with 1.5 million engineers entering the workforce annually

## Economic Efficiency

40-60% operational cost advantage compared to Western markets

## Policy Framework

Targeted GCC-friendly initiatives from states like Karnataka and Telangana

## Innovation Ecosystem

Proximity to India's vibrant startup community and academic research centers

## Infrastructure Readiness

World-class facilities, SEZ benefits, and advanced connectivity

# Core Value Propositions

---

# Strategic Co-Creation & Innovation Acceleration

## Transform How Your GCC Innovates Through Direct Startup Collaboration

GCCs leading product development, R&D, and platform innovation can leverage structured engagement with India's most promising DeepTech startups to:

### Accelerate Time-to-Market

Reduce development cycles by 30-40% through ready-to-deploy AI solutions

### Create Market Differentiation

Deploy India-first innovations that can be scaled globally

### Develop Co-Owned IP

Establish joint intellectual property models that benefit both GCCs and startup partners

### De-Risk Innovation

Test & validate emerging technologies in controlled environments before global deployment

### Access Specialized Capabilities

Engage with startups pioneering technologies in:

- *Advanced AI for predictive maintenance in manufacturing*
- *GenAI-powered copilots for support center optimization*
- *Hyper-personalization engines for retail customer experiences*
- *Self-healing IT infrastructure*
- *AI-driven contract automation and compliance frameworks*

# Strategic Co-Creation & Innovation Acceleration

## Summit Delivery Mechanisms:

Sandbox environments for rapid prototyping and validation

Frameworks for co-IP development & commercialisation

Joint go-to-market strategies for India and global markets

Curated matchmaking between GCC innovation needs and startup capabilities

Structured pilot programs with defined KPIs and success metrics

# Policy Influence & Infrastructure Alignment

## Shape the Regulatory & Infrastructure Environment That Will Define India's DeepTech Future

Participate in exclusive, closed-door sessions with senior leadership from MeitY, NASSCOM, Startup founders and IITs to influence:

### Regulatory Frameworks

Help shape balanced approaches to data localization, AI regulation, and IP ownership

### National Computing Infrastructure

Contribute to the IndiaAI compute infrastructure roadmap and resource allocation

### Ethical AI Standards

Define responsible AI adoption frameworks for enterprise deployment

### Open-Source Ecosystems

Influence the development of India-specific LLM models and open standards

# Policy Influence & Infrastructure Alignment

---

## Strategic Value:

Position your GCC as a critical stakeholder in India's technology policy execution

Gain early visibility into upcoming regulatory changes affecting technology deployment

Establish direct channels to policy architects for ongoing dialogue

Ensure your global standards and local compliance needs are represented in policy discussions

# Talent & Capability Development

## Build Tomorrow's Workforce Through Strategic Academia-Industry Partnerships

Move beyond traditional recruitment to shape the entire talent pipeline:

### Co-Created AI Labs

Establish joint research facilities with IITs and top engineering institutions

### Challenge-Based Talent Programs

Design specialized curricula addressing your specific technical challenges

### Knowledge Exchange

Create structured rotation programs between startup technical teams and GCC platforms

### Research Commercialisation

Convert academic innovations into practical applications for your global operations

# Talent & Capability Development

---

## Tangible Outcomes:

Access to 150+ founders building cutting-edge technologies

Direct connections with faculty leaders from 5 premier academic institutions

Priority engagement with talent development initiatives

Customized upskilling programs for existing technical teams

# Investment & Strategic Acquisition

## Identify High-Potential DeepTech Ventures Aligned with Your Strategic Priorities

For GCCs with corporate venture mandates:

### Curated Deal Flow

Evaluate 5-6 pre-vetted AI-native startups solving critical use cases

### Structured Engagement

Progress from pilots to investments through defined pathways

### Acquisition Pipeline

Identify potential technology or talent acquisitions

### Co-Investment Opportunities

Participate in consortium investments with other strategic partners

# Investment & Strategic Acquisition

---

## Tangible Outcomes:

AI-powered automation and operations enhancement

Advanced data security and compliance solutions

Customer experience transformation technologies

Specialized industry-specific applications

# Event Structure & Engagement Opportunities

---

## VIP Policy discussion & Inauguration

Direct engagement with government leadership

## Industry-Specific Panels

Deep dives into frontier tech, ESG implementation, R&D models

## Interactive Demos

Hands-on experience with emerging technologies

## Research & Industry Exposition

Showcase of academic-industry collaborations

## Curated Networking

Structured connection opportunities with key stakeholders

# Exclusive GCC-Focused Tracks

## Leadership Panel

"GCCs as the Backbone of India's Innovation Economy"

## Strategic Discussions

"Building Synergies Across GCCs, Startups, and Academia"

## Investment Forum

GCC CVC and Co-Investment Strategies

## Sustainability Showcase

AI, Quantum, and Robotics Applications for ESG Goals

# Target Audience Composition

35% Founders, CXOs, and Investors

30% Incubators, Accelerators, and Senior Industry Leaders

20% Government Officials, Policy Makers, and Academic Leaders

15% Global CXOs, Directors, and Research Pioneers

# Our Legacy & Reach

---

# Track Record of Excellence

---

**20+** successful editions across 7 major Indian cities

Engagement **23,000+** entrepreneurs & innovators

Platform for **1,000+** distinguished speakers & mentors

Established **Network** of CXOs, investors, & policy architects

# Some of Our Esteemed Past Speakers

# Some of Our Esteemed Past Speakers

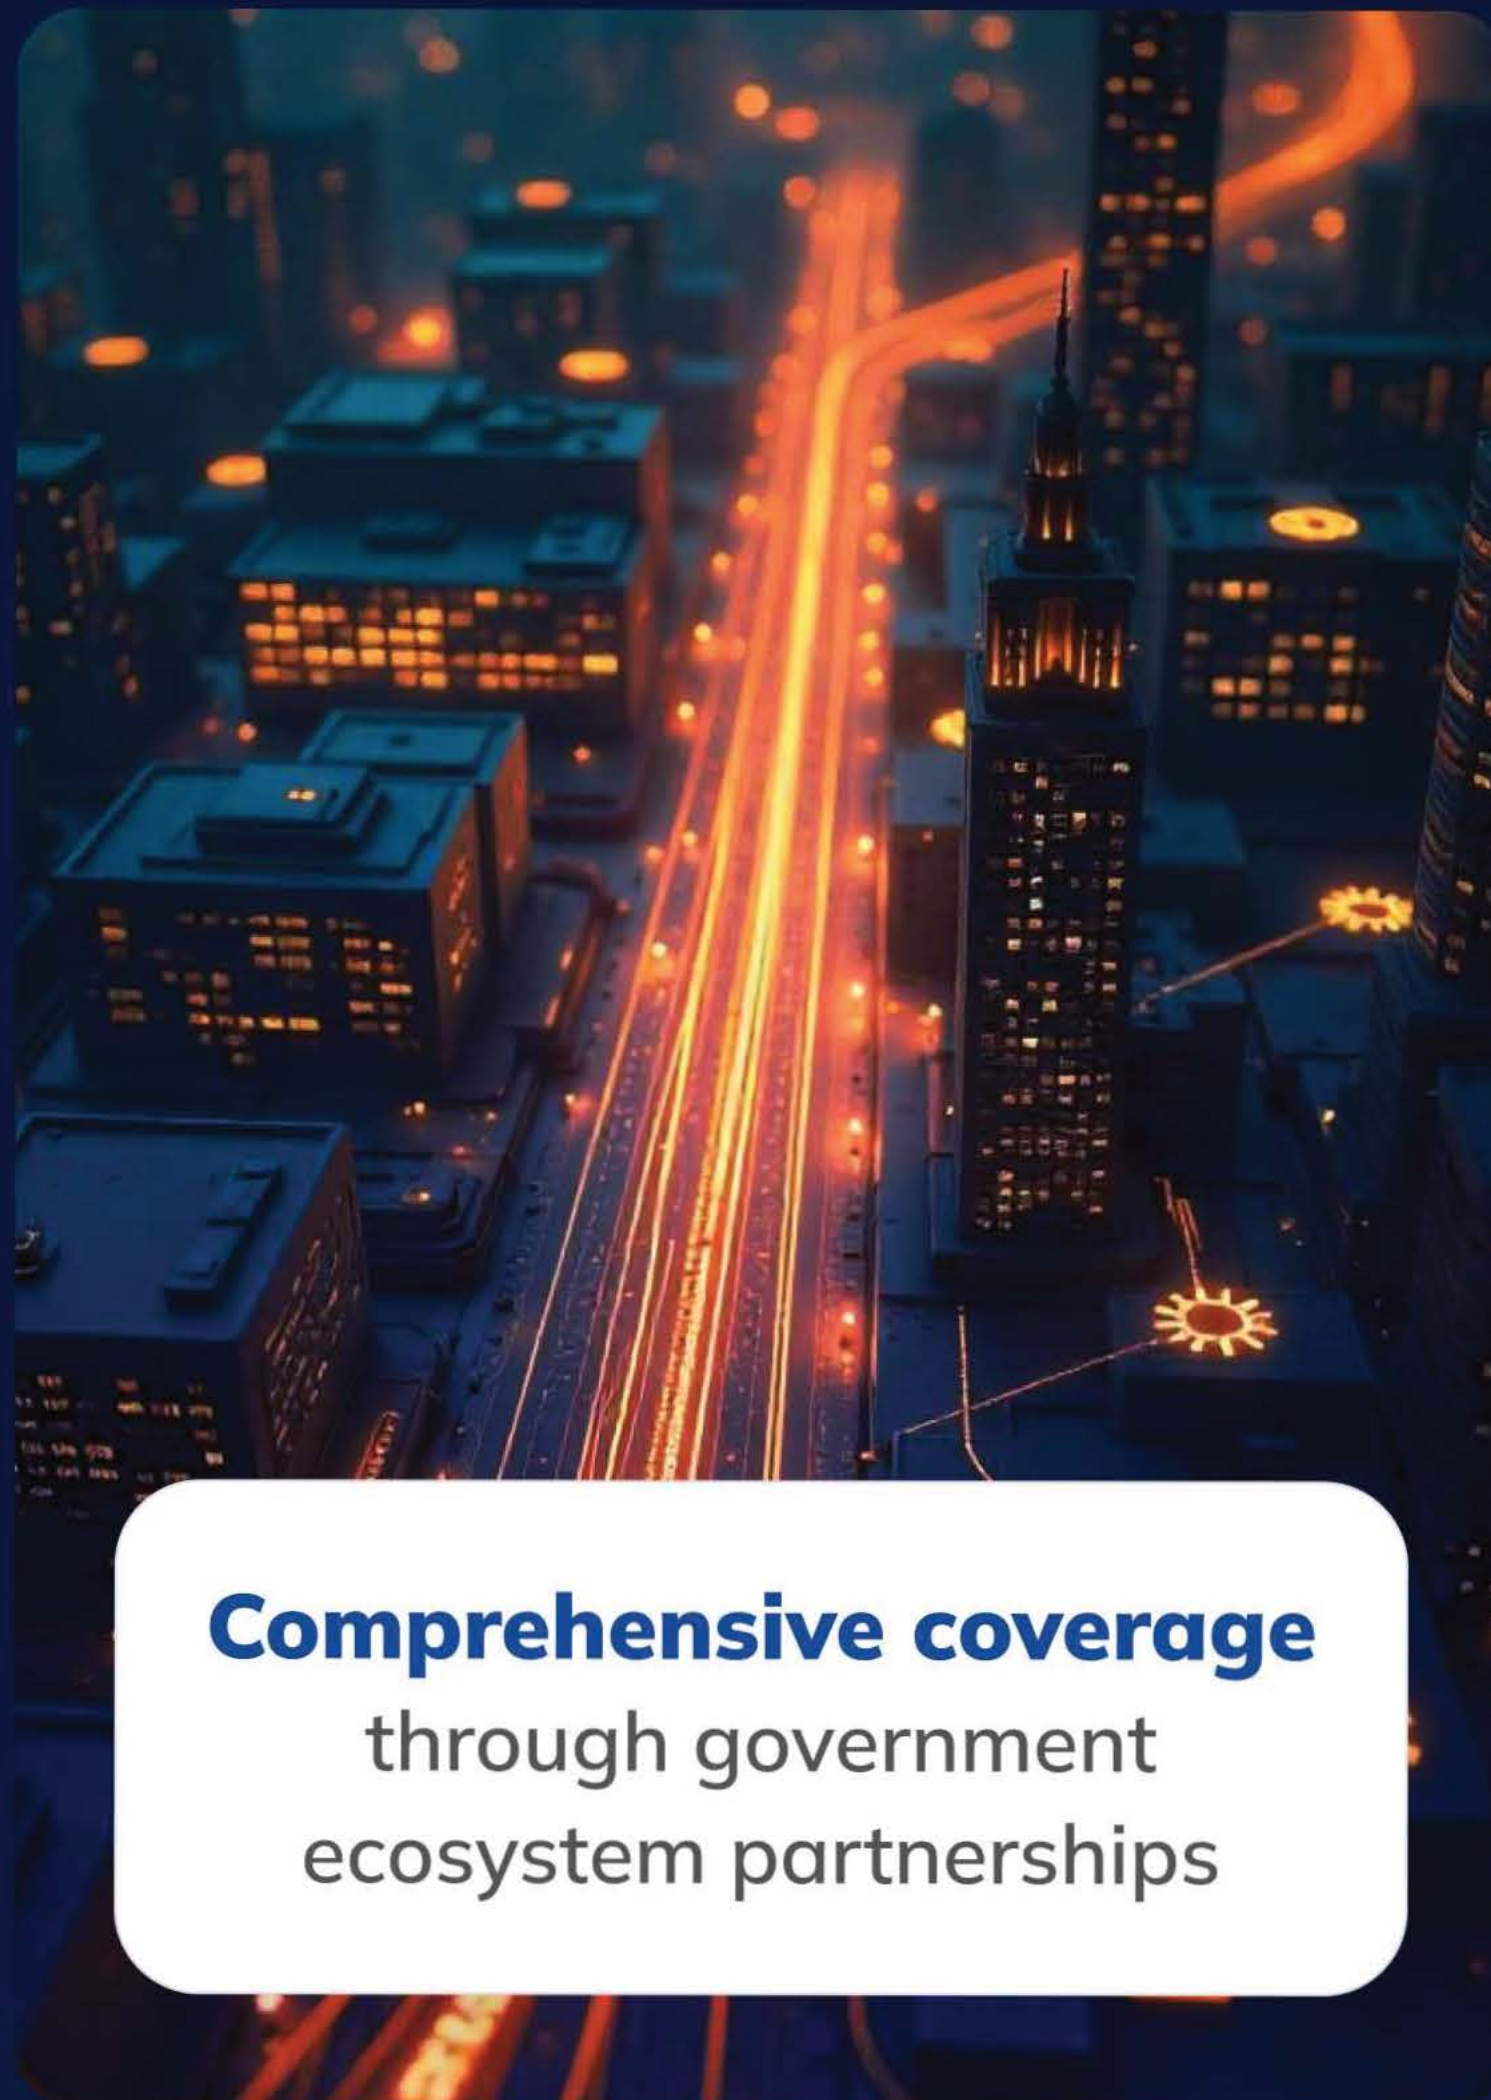

# Media & Outreach Impact

**5M+** impressions across national media platforms

**Comprehensive coverage** through government ecosystem partnerships

Global distribution of post-event **white papers & video highlights**

# Brand Visibility & Engagement Outreach

Prominent **brand presence** across the official social media channels of IIT Kanpur, reaching an audience of over **400,000** followers.

**Strategic placement** of hoardings and banners at high-footfall locations within the campus, engaging a community of more than **10,000** students.

Inclusion in event-related **media kits** and **promotional materials** shared with distinguished speakers, industry leaders, and partner organizations.

# Sponsorship Opportunities

---

# Premium Engagement Tiers

---

**25,00,000**

TITANIUM PARTNER

- Exclusive keynote opportunity
- Private roundtable with policymakers
- Co-authorship of GCC Impact Report
- Comprehensive brand integration
- Premium exhibition presence
- Dedicated talent engagement lounge
- VIP dinner access
- Leadership role in ESG workshops

**15,00,000**

PLATINUM PARTNER

- Guaranteed panel participation
- Prime exhibition location
- Premium media coverage
- Co-branded ESG content development
- Access to VIP networking lounge

**10,00,000**

GOLD PARTNER

- Breakout session speaking opportunity
- Standard exhibition booth
- Enhanced media presence
- VIP access throughout summit

# Premium Engagement Tiers

---

**5,00,000**

SILVER PARTNER

- Targeted branding on select materials
- Multiple summit access passes
- Structured networking opportunities

**2,50,000**

BRONZE PARTNER

- Digital expo presence
- Post-event newsletter recognition

**50,000 (+GST)**

EXHIBITION ONLY

- Standard booth with branding
- Basic expo access

# Specialised Activation Opportunities

---

**GCC-Startup Pitch  
Competition Sponsor**

**Sustainability Innovation  
Pavilion Partner**

**Executive Networking  
Lounge Sponsor**

**AI & Quantum Research  
Showcase Patron**
